

Tudor Oltean

SKILLS

GAME DESIGN

Systems & mechanics design · Balancing · Level design · Skill & challenge design · MDA framework · GDD authoring · Playtesting & iteration · Game analysis

PROGRAMMING

C# · C++ · Java · HTML / CSS / JavaScript

ENGINES & TOOLS

Unity · Autodesk Maya · Substance Painter & Designer · Adobe XD · Figma · Ableton Live · Trello / Notion

LANGUAGES

Romanian (native) · English (TOEFL)

EDUCATION

Saxion University of Applied Sciences

BSc Creative Media & Game Technologies,
Design specialisation

ENSCHDEDE · SEP 2022 – PRESENT

University of Twente

Technical Computer Science

ENSCHDEDE · SEP 2021 – FEB 2022

“Alexandru Ioan Cuza”

Mathematics–Informatics ·
Romanian Baccalaureate

BUCHAREST · SEP 2017 – JUN 2021

GAME DESIGN TRAINING

// Game Design Course

ELVTR, taught by **Gavin Yeo**, Design Director at EA / Criterion Games (Battlefield, Need for Speed).

Covered: **GDD writing** · **MDA framework** · **Game systems** · **Skill & challenge design** · **Level design** · Player experience · Narrative integration · Playtesting & iteration cycles

Project OverPower

My own **3v3v3 multiplayer arena** game. I wrote the core loop, **systems**, mechanics and **balancing** as a living Game Design Document, refined it over the course, and prototyped it in **Unity** to test the loop in play.

EXTRACURRICULAR ACTIVITIES

Psychology Course · Learnity, Bucharest

Emotional and behavioural development of the brain: the basis for how I reason about **player motivation**.

Debate Club · Learnity, Bucharest

Building an argument and defending it under pressure: how a **design decision gets pitched and challenged**.

Summer Camp Internship · Learnity, Bucharest

Running group activities for younger participants each summer since 2019.

ITC Workshops · IntegralEdu

Public speaking, teamwork, negotiation, **leadership**, project management, creative thinking, social awareness.

Introduction to Philosophy · Learnity, Bucharest

Close reading of Nietzsche, Kant and Neruda; thematic thinking that feeds **worldbuilding**.

Robotic Process Automation · UiPath

Built a working automation robot with a team on the UiPath platform.

ALSO WORKED AS

Taco Mundo, Enschede: all-round crew & delivery · Oct 2023 – Jun 2025

Domino's, Enschede West: crew & delivery · Nov 2022 – Oct 2023

Recommendation Letter

To whom it may concern,

This letter confirms that Tudor Oltean has successfully completed the Game Design course delivered through ELVTR and instructed by me.

Throughout the course, Tudor demonstrated a strong understanding of core game design principles, including systems, level design, player experience, and narrative integration. He effectively applied frameworks such as Mechanics, Dynamics, and Aesthetics (MDA) and translated ideas into clear, structured design work.

As part of the course, Tudor developed a portfolio-ready Game Design Document (GDD), where he excelled in communicating his game vision, core loop, systems, and narrative. His work showed particular strength in worldbuilding and integrating story with gameplay.

Tudor also engaged actively in feedback and iteration cycles, refining his work through peer discussion and playtesting. He demonstrated strong skills in documenting, presenting, and improving his designs key competencies for game development environments.

It has been a pleasure working with Tudor, and I am confident he will apply these skills effectively in his future career in game design.
